

User Story 1

As a borrower I want to search for books and find the books I want to read, borrow books so that I can expand my horizons.

Acceptance Criteria 1

Given I have selected a book when I check it out. The location of the book should change from the library to the borrower.

User Story 2

As a librarian I want to track the location of books, retrieve, add new books and repurchase books and retire unused books.

Acceptance Criteria-

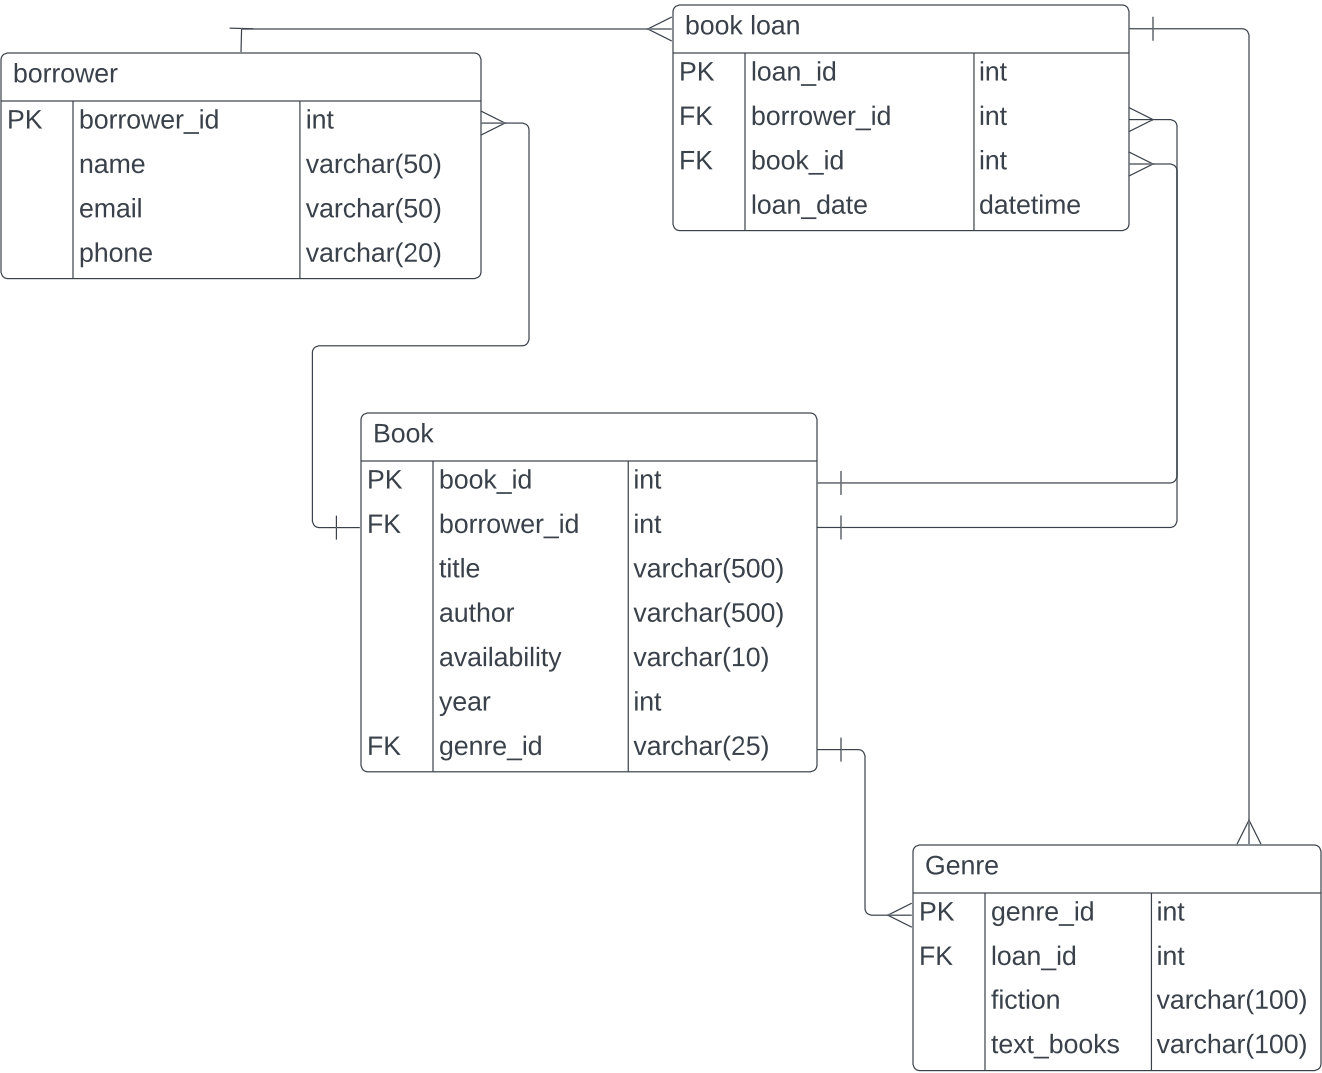

Given that I have responsibility for the collection of books in our inventory. I would like to view the statistics of book usage, dewey decimal references, allocation.

User Story 3

As Local Council I want to assess if library collection represents demographic of the community.

Acceptance Criteria-

Given that I have public funding to invest, when the library collection is assessed, then I can analyse what books to order / stock.
